DESIGN AND MANUFACTURE

Flow-sort™

X-RAY DIAMOND RECOVERY EQUIPMENT

PRECISION X-RAY SOURCE

WHEN ONLY THE BEST CAN DO!

- IF YOU ARE TOLD THAT YOUR DIAMONDS ARE OF THE SO-CALLED “LOW LUMINESCENT” TYPE, AND THEREFORE CAN NOT BE RECOVERED WITH X-RAY TECHNOLOGY, DON’T JUST TAKE SUCH STATEMENTS AS FACTS! CONTACT FLOW FOR AN EXPERT OPINION! WE AT FLOW HAVE ALL TEST FACILITIES IN-HOUSE TO CHECK YOUR DIAMONDS. IF IT IS DIFFICULT TO BRING YOUR DIAMONDS TO FLOW IN JOHANNESBURG, WE CAN BRING OUR MOBILE TEST STATION TO YOUR MINE!
- WITH OUR PRECISION, ULTRA LOW NOISE X-RAY SOURCE AND OUR UNIQUE DETECTION CONCEPT (SA PATENT 94/3583), CONTROLLED AND SUPPORTED BY FLOW’S AUTOMATIC CALIBRATION STABILITY SYSTEM (ACSS), WE MIGHT JUST PROVE THAT A FLOW SORT CAN DO WHAT OTHERS CANT!
- IF, AFTER TESTING YOUR MATERIAL, WE SAY THAT OUR SORTERS WILL RECOVER YOUR DIAMONDS, THESE WILL NOT JUST BE EMPTY PROMISES. IF OUR SORTERS DO NOT PERFORM AS WE PROMISED, YOU SIMPLY RETURN YOUR FLOW SORT(S) AND WE’LL GIVE YOU FULL REFUND!
- TODAY, WITH OVER 500 SORTERS SOLD, NOT A SINGLE UNIT HAS EVER BEEN RETURNED!
- **AND, IN LINE WITH FLOWS POLICY, “YOUR FLOW-SORT WILL NEVER BECOME OBSOLETE” ALL FLOW SORT MACHINES CAN BE RETROFITTED WITH THIS PRECISION HIGH VOLTAGE GENERATOR.**
